

Digital Addiction & Social Media Overuse

Capstone Project

BBIT

Grace Wanjiru Ndumbi

C027-01-1006/2022

Introduction

- Digital devices are widely used.
- Social media is highly engaging.
- Overuse affects daily life.
- Mental health and work are impacted.
- Need awareness and solutions.

What Is Digital Addiction?

- Excessive use of digital devices.
- Compulsive social media checking.
- Loss of control over usage.
- Interferes with sleep and focus.
- Affects relationships and well-being.

Causes of Digital Addiction

- Smartphones & notifications.
- Peer pressure and FOMO.
- Entertainment and streaming platforms.
- Lack of digital literacy.
- Work and study online demands.

Effects on Mental Health

- Anxiety and stress.
- Depression and loneliness.
- Reduced attention span.
- Poor sleep quality.
- Emotional dependency on devices.

Effects on Productivity

- Distraction from work or study.
- Time wasted scrolling feeds.
- Lower academic performance.
- Reduced creativity and focus.
- Procrastination habits.

Proposed Solutions

- Awareness campaigns on risks.
- Digital wellness and self-control apps.
- Scheduled device-free times.
- Educate youth on healthy usage.
- Balance entertainment and productivity.

Role of Schools & Communities

- Digital literacy programs.
- Encourage offline hobbies.
- Parental guidance and mentoring.
- Promote social interaction.
- Monitor and guide screen time.

Role of Government & Industry

- Enforce responsible platform design.
- Regulate addictive features.
- Support mental health initiatives.
- Provide public awareness campaigns.
- Incentivize balanced tech use.

Benefits of Managing Usage

- Improved mental health.
- Increased focus and productivity.
- Better sleep and lifestyle balance.
- Stronger relationships.
- Responsible use of technology.

Challenges

- Resistance to change.
- Habitual behavior is strong.
- Peer pressure to stay online.
- Work/study often requires screens.
- Overreliance on digital tools.

Opportunities

- Develop digital wellness apps.
- Promote tech education in schools.
- Research on healthy tech use.
- Youth leadership in awareness campaigns.
- Balance between online/offline life.

Conclusion

- Digital addiction is serious.
- Mental health and productivity are impacted.
- Awareness, tools, and policies help.
- Everyone has a role.
- Balance is key.

Thank you for listening.
